This home has only had ownership under their names (Dinwoodie for 30 yrs, Drayton for 20 years, Hendren for 95 years). The high gables and specially shaped windows give the home a unique appearance. It was purchased by James Hendren in 1920, and the verandah was added later by James' uncle, Able Hendren. James was in the livery business before the turn of the century and was a harness maker for the first 25 years of the new century. James' son, Wallace during the late 1930's-early 1940's was Village Constable, Tax Collector, Assessor, Dog Catcher and Janitor of the Village Hall, all for a few dollars.

In the mid 1940's Guy Peel ran a toy factory there that manufactured children's wooden wheelbarrows. The company was known as Peels Peerless Products. Bob Delledone worked in the factory after school and during holidays. Bob also lived in the home in 1937. In 1938 it was on the door of this home there was a card placed that read Scarlet Fever - the card was there from November-February and Delledone had to stay in the hotel and milk and groceries had to be left on the verandah when delivered. At this time Bob also had to have a blood transfusion on the kitchen table. The blood was taken by a large needle from my father's arm and placed in my uncle. Dr. Alex and John Fraser were the doctors.

St. Andrews Presbyterian Church. This is the second church with the same name in Lakefield. The first church was built with local stone in 1863 and was located on 76 Caroline St. on the south-east corner of Caroline and Katherine St. The second church is located on the south-west corner of Bridge and Caroline St. By March 1931, the basement of the new church was ready and services were held there for the next 2 years.

On the way from the train to the boat dock (early 1900's). The building on the left was the People's Christian Association Hall which was built in 1877 by the five Protestant religions: Anglican, Baptist, Methodist, Presbyterian and Bible Christian Church. On April 11, 1877 a committee was formed to oversee the construction, Issac Garbutt (Baptist), John C. Sherin (Methodist), John Hall (Bible Christian), Joseph Nelson (Presbyterian), Robert Strickland (Anglican). At 4pm that afternoon the ground was broken and the official cornerstone was laid by Mrs. Robert Strickland. The cornerstone was taken from the fireplace hearth from the first home built by Samuel Strickland. 18 days later (April 29th) the P.C.A. Hall was ready for use. It had been designed and built entirely by volunteers. Its location was 106 Queen St., the present site of Brewer's Retail. The structure measured 60x40 with a peak height of 22 feet. To help pay off construction costs, the committee organized an excursion which was advertised in both the Ptbo Examiner and Review. The first meeting in the new hall was conducted by the Evangelist Katherine Charlotte Strickland, daughter of Robert and was reported as a place for all denominations to meet. For the next several years the hall was home to a variety of religions and social events. A typical example being the concert held in January 1886 by the Barnardo Home children from Peterborough. The adult admission was 25 cents with a package including train fare from Peterborough, plus admission at 50 cents. In May 1893, Caroline Strickland purchased the hall for \$620 with the proceeds divided amongst the four remaining Protestant churches. The Strickland Canoe Co. was formed the year before in 1892 and that following year the company suffered a great loss from a fire which damaged the factory and equipment. The exact location of the factory is not known but the paper stated that the Strickland building was located near the river - likely one of the mill-line buildings on Water St. Some of the factory employees were hired immediately at Peterborough Canoe and some waited for the Strickland Company to re-open. In July 1904, the Gordon and Strickland companies amalgamated to form the Lakefield Canoe Building and Manufacturing Company Ltd. Forty thousand shares were placed on the market at \$100 per share. The new company proposed building both boats and houses. The directors were Edward Rolleston Tate (lumberman), John E. Baptie (carpenter), John E. Richardson (boat builder, George Alexander Baptie (carpenter), and Harry Graham Fitzgerald (hardware merchant). Once again, on December 23, 1910, fire destroyed the factory that had been enlarged to 50x180 feet. A larger brick building was erected by the Baptie Brother on the same site only much closer to the sidewalk. In May 1911, Gilbert Gordon, son of the famous boat builder Thomas Gordon was employed as company foreman. The company was now building larger motor craft. One such craft was the Elizabeth built for Mr. Russel Dodworth of Pittsburg who owned Boschin, a Stoney Lake cottage located on Dodworth's land. The Elizabeth was the first inboard to be built in the new brick factory. A part of the building that today is located at 98 Queen St. was built in 1911 to be used as a showroom and paint shop upstairs, today the building with its many editions is a restaurant.
