INITIAL AND OVERTIME RATES—All rates quoted are for a three-minute period, except the 10¢ rate which is for five minutes. The overtime rate per minute is approximately 1/3 of the Station-to-Station rate for the initial 3-minute period.

NIGHT AND SUNDAY RATES—Low night rates are in effect from 6 p.m. to 4.30 a.m. weekdays, and all day Sunday and apply on all calls other than those to nearby points. The time in effect at the centre where the call originates, determines the rate which applies.

OVERSEAS RATES—See inside back cover.

IT'S QUICKER, IF YOU CALL BY NUMBER

FOR LONG DISTANCE CALLING INFORMATION SEE INSIDE BACK COVER.

NOTE:—BUCKHORN & BURLEIGH FALLS CUSTOMERS—To call Lakefield, Dial 2 and give the number to the Operator

For Dialing Instructions — See Page 3

YOUR SERVICE REPRESENTATIVE

Your telephone needs are the responsibility of a service representative in our Business Office. Whether you call by telephone or in person you will find her anxious to help you with any questions you may have about your bill or your service. To reach your **Service Representative** by telephone, call or dial the number listed for the Bell Telephone Company Business Office.

GENERAL INFORMATION

PUBLIC NOTICE

The Company's tariffs are open to public inspection and may be seen on application at any of its Business Offices.

Business Transactions

All matters relating to new telephone service, moves, removals, termination of service, directory listings, directory advertising, adjustment of accounts, collection of bills, etc., are handled at the Business Office of the Company.

Directories

Directories are the property of the Company and are loaned to subscribers as an aid to the use of telephone service. Their contents may not be reproduced.

Although every precaution is taken to ensure accuracy in directory listings, the Company cannot assume any liability for losses due to errors or omissions.

No auxiliary binders or holders may be used except as provided by the Company, and no advertising labels or stickers may be affixed to directories.

Identification of Employees

Employees of the Company whose duties require them to enter the premises of subscribers or others wear a numbered badge bearing the name of the Company or carry a card of identification from the Manager. Any person claiming to be an employee of the Company who is without this badge or card should be refused admittance and the Manager notified at once by telephone.

Recording of Telephone Conversations

A short "beep" tone heard over the telephone about every 15 seconds, indicates that the person with whom you are talking is recording your conversation by means of an electrical recording machine connected to the line. The "beep" signal is produced automatically by a device which connects the recorder to the telephone line and is provided by the Telephone Company for your protection.

If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect his recording machine. When he disconnects his recorder, the signal is no longer heard.

Subscribers who intend to use recording equipment on telephone lines should call our Business Office for further information, as use of a recorder without this signal is not permitted.

Interference with Apparatus

Equipment required for the furnishing of telephone service is the property of the Company and should be carefully used. Equipment may not be moved, except by the Company and may not be connected with apparatus not installed or approved by the Company.

Mobile Telephone Service

Mobile Telephone Service provides a means of talking to vehicles such as automobiles and trucks. Each Mobile Telephone has its own number. Conversations to and from vehicles equipped with this service travel part way by regular telephone wire and part way by radio channel.

To place a call to a mobile unit, call Long Distance.

If you wish further information about mobile telephones, call our business office.

Magneto Telephone Instructions

Individual and Two-Party Lines—To call a subscriber, signal the operator and give her the number. Leave the receiver in place while ringing. When conversation is finished replace receiver and give one quick ring-off.

Rural Party Lines—Always listen before ringing, to ascertain if the line is in use and thus avoid interrupting a conversation that may be in progress.

Before calling a subscriber on your line make sure of his number by consulting the directory, then ring, being careful to make the signal distinct. The signal to give is indicated by the number following the letter "R". The first figure following the letter "R" represents the number of long rings, and the second figure, the number of short rings. For example, to call -R-24, give two long followed by four short rings. Do not press the push-button on your instrument when calling a subscriber on your line.

To call a subscriber on another line, signal the operator and give her the number. To signal the operator, press push-button while ringing.

When conversation is finished, replace receiver and give one quick ring-off. Do not press push-button while ringing off.

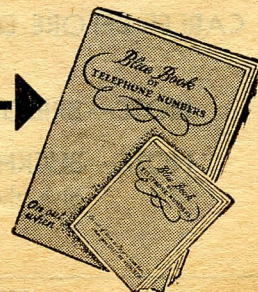

**For Better, Faster Telephone Service

SAVE TIME—CALL BY NUMBER

DIALING INSTRUCTIONS

It's Easy to Dial

FIRST

CONSULT YOUR DIRECTORY

If the number is not listed call Information for the number and jot it down for reference. (Peterborough customers dial 113; Beaverton, Bridgenorth, Buckhorn, Burleigh Falls, Lindsay and Norwood dial "Operator".)

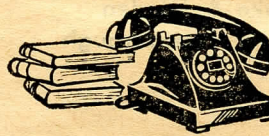

3. SPEAK DIRECTLY INTO TRANSMITTER — LIPS $\frac{1}{4}$ inch from THE MOUTHPIECE.

DISTINCT SPEECH GETS BETTER RESULTS.

4. REPLACE THE RECEIVER

promptly and properly after terminating your call. This keeps your TELEPHONE READY FOR ACTION.

AVOID THIS

SECOND

WAIT... FOR DIAL TONE

LISTEN FOR DIAL TONE—a steady humming tone, indicating that the equipment is ready for your call. If you do not hear the dial tone within a reasonable time, hang up, wait for a few seconds and try again.

DO YOU WANT TO CALL ANOTHER PARTY ON YOUR LINE?

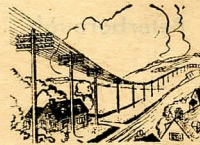

1. FROM TWO-PARTY LINES—

DIAL 1-1-9-1 and HANG UP. Both your own and the other party's bells will ring. When ringing stops—it indicates the other party has answered. REMOVE YOUR RECEIVER

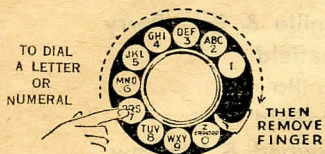

PROMPTLY and talk. If ringing does not stop remove your receiver for a moment to stop the ringing.

2. FROM RURAL LINES—

DIAL THE NUMBER LISTED in the directory. After you have dialed the complete number the busy signal will be heard. HANG UP AT ONCE. Both parties' bells will then ring. When ringing stops it indicates the called party has answered. REMOVE YOUR RECEIVER and talk. If the called party does not answer remove your receiver for a moment to stop the ringing.

THIRD

WHEN YOU DIAL — keep the receiver off the hook. Using the index finger pull the dial all the way round until your finger strikes the metal finger stop. Then remove

your finger and allow the dial to return by itself. DO NOT TOUCH THE DIAL DURING ITS RETURN TO NORMAL. If your finger slips or you make a mistake replace the receiver for a few seconds.

FOURTH

AFTER YOU DIAL

1. LISTEN FOR SIGNALS

RINGING—Soft intermittent bur-r-r.

BUSY—Rapid buzz-buzz-buzz.

NO SUCH NUMBER—a rising and falling siren-like tone which indicates an incorrect office or non-existent number has been dialed. Hang up. Check the number in the directory, then dial again.

2. WAIT AT LEAST A MINUTE FOR CALLED PARTY TO ANSWER HIS TELEPHONE.

ASSISTANCE CALLS AND SERVICE DIFFICULTIES

If for any reason you are unable to dial or if you encounter repeated difficulties dial OPERATOR—operators are always on duty to assist you.
